Connecting2Australia
DISABILITY WITHOUT LIMITS

**CONNECT YOUR BUSINESS WITH C2A AND HELP PROVIDE EMPLOYMENT
FOR PEOPLE LIVING WITH DISABILITY.**

OUR BUSINESS

Connecting2Australia (C2A) is a not-for-profit Disability Social Enterprise and registered NDIS provider that has been empowering people with disability since 1953.

C2A's purpose is to enable full and equal participation in society for people with disability.
Our mission is to support people with disability to live their chosen life.

HOW WE CONNECT

C2A's support programs are delivered across two operational streams:

- Business Connections:
 - Commercial services that provide employment for people with disability
- Community Connections:
 - Community programs and supports that promote social inclusion

BUSINESS CONNECTIONS

Operating from seven sites located around regional Victoria and metropolitan Melbourne, C2A's Business Connections just so happens to be a commercial operation that employs people with disability.

Delivering professional results, on brief, on budget and on time, we hold long term business relationships across the construction, education, industrial, health and local government sectors.

DISABILITY MYTHS

There are misconceptions held in the community regarding people with disability, and their ability to participate in and add value to the community.

- 1 in 5 people in Australia live with disability¹
- 90% of disabilities are invisible²
- 37% of households include a person with disability³
- Working-age people with disability are twice as likely to be unemployed as those without disability¹

A partnership with C2A can help overcome negative barriers and illustrate the commercial and social capabilities of people with disability.

SUPPORTED EMPLOYMENT

C2A's Business Connections operate under a unique model of support compared to other trades and services work crews.

Our crews are made up of Supported Employees with a diverse range of abilities and skills, working with highly trained Disability Support Workers.

Disability Support Workers are on site with our crews to ensure that the safety and working development goals of our Supported Employees are met.

The purpose and pride that our crews take, ensure that projects meet the quality criteria and expectations of our business customers.

SOCIAL PROCUREMENT

Connecting with C2A can help organisations use their buying power to generate social value above and beyond the value of the goods, services, or construction being procured, within and out of the Victorian Government's Social Procurement Framework.

These social values benefit all Victorians when the social and sustainable outcomes in the Framework are achieved.

INTEGRATED MANAGEMENT PROCESS

- Supported Employees
- Disability Support Workers
- Business Manager
- Operations Manager
- People & Culture Manager
- Finance Department
- Risk & Compliance Manager
